NESCENS COSMECEUTICAL TREATMENTS

Formulated under the supervision of Professor Jacques Proust, Nescens products offer a rejuvenating beauty-aging approach. Each preparation contains selected ingredients with scientifically proven properties. To achieve the highest degree of efficacy, these active ingredients are incorporated at optimum concentrations.

NESCENS AND OXYLIGHT FACIAL TREATMENTS

Our facial treatments are carried out using cutting-edge Oxylight technology combined with diamond dermabrasion, oxygen treatment, ultrasound, microcurrent, and LED light, promising transformed skin and an enhanced complexion.

RESET TREATMENT

Aims: Deep cleansing – Hydration

This skin-boosting treatment begins with diamond dermabrasion, followed by the application of a Nescens restorative mask whose action is enhanced tenfold by LED therapy. The treatment ends with a high-pressure oxygen spray for powerful, long-lasting moisturizing action.

1h: CHF 300

REPAIR TREATMENT

A comforting ritual that reinforces the skin's natural repair process.

1h: CHF 300

LIFT & SCULPT TREATMENT

Aims: Firmness – Toning

Microcurrent is at the heart of this treatment, lifting the cheekbones while toning your skin and enhancing your eyes. By combining Nescens products with LED lights and ionized oxygen, tissue regeneration is accelerated, giving your face a new youthfulness.
